

Recycled & Fair Trade

From trash to treasure

Fair Trade Certified

NOTE: Our products are certified 'Recycled' and 'Fair Trade'

The organization and the factory are located in a small village in the Kampong Thom Province in Cambodia. As a non-profit and non-political organization, they started in 2001 and are committed to help all the inhabitants of two villages close to their premises. Behind every piece of work, there's the worker and his family, more than what you see, more than the hands that made the product. Your support helps the villagers break free from their poverty cycle, and find hope in life.

This organization was founded for the purpose of creating employment and providing skills and livelihood to women and young people in rural Cambodia.

Since 2016 the organization has been accredited as a Fair Trade Guaranteed member. They are now 1 of 28 Guaranteed members in the whole Asia region. They hope that their participation in the Guaranteed System (GS) will bring them to be a leader, especially in Cambodia, and hopefully a mentor for future organizations going through the GS both in India and the Asia region.

Waste Recycling

We can all help by reducing, reusing and recycling waste. Cambodia landfills are continuously being fed with tons of waste. Our people buy these wasted bags from people living on the landfills. These bags are then cleaned, cut and transformed by locals into new, reusable bags and accessories.
